Commissioner of Patents and Trademarks

Applicant's election without travers of Group IX, (claims 6-7) in Paper No. 4, filed on 4/4/02 is acknowledged.

Claims 1-5 have been withdrawn from consideration by examiner under 37 CFR 1.142(b), as being drawn to nonelected invention.

Applicant's response is not fully responsive to the prior Office Action Paper No 2 filed on 4/4/02 because of the following:

(A) In the prior Office Action it was stated in the paragraph No.6:

This application contains claims directed to the following patentably distinct species of the claimed Invention I-XVI: wherein the carrier is made from the substance selected from the group recited in the claim 3.

Applicant is required to elect a single disclosed species of biomolecular carrier.

(B) In the prior Office Action, it was stated in the paragraph No.7 :

This application contains claims directed to the following patentably distinct species of the claimed Invention IX-XVI: wherein pathophysiological state is selected from the group recited in the claim 7.

Applicant is required to elect a single disclosed species of pathological state.

Applicant is advised that the response to this requirement to be complete must include an election of the species as it reads on each species election set forth above in sections (A) and (B) to be examined even though the requirement be traversed.

Since the above -mention submission appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD OF (1) MONTH OR THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR1.136(a) ARE AVAILABLE.
